WORKFORCE EDUCATION THE METALLICA SCHOLARS INITIATIVE PROVIDES FUNDING FOR OVER 25 DIFFERENT AREAS OF STUDY

“I’ve always been a machines guy. It’s always been something I’ve enjoyed. Robots are the future. I am excited to be a part of an industry that will grow along with me. [When selected as a Metallica Scholar] I almost exploded with excitement. I got in my car with Metallica on full blast and the windows down while cruising the streets.”

Joshua Hendricks
Metallica Scholar,
Industrial Automation
Technician (Mechatronics)
Valencia College

“Trade education is probably one of the most underrated skills out there. Four-year colleges are pushed on everybody, but the trades really do impact society just as much as doctors and lawyers. In my case, cars are a huge part of our society’s transportation. Those doctors and lawyers can’t get anywhere without their car. For people interested in this trade: it’s a stable career path for people and it can impact the world just as much as anything else.”

Karina Badilla
Metallica Scholar,
Automotive and Collision Repair
College of Lake County
